MAYUR SUBHASH POL

.NET BACKEND DEVELOPER

Pune, Maharashtra | 8698703076 | polmayur29@gmail.com
linkedin.com/in/mayur-pol-159928285

PROFESSIONAL SUMMARY

.NET Backend Developer with 2.5 years of experience building web applications and RESTful APIs using C#, ASP.NET Core MVC and ASP.NET Core Web API. Experienced in Entity Framework Core, SQL Server, MySQL, JWT authentication, role-based access control and multi-tenant SaaS applications. Hands-on experience with payment integrations, reporting and export functionality, legal-tech workflows, healthcare applications and AI-assisted features.

TECHNICAL SKILLS

Languages: C#, SQL, JavaScript

Backend & Frameworks: ASP.NET Core, ASP.NET Core MVC, ASP.NET Core Web API, .NET, RESTful APIs

ORM & Data Access: Entity Framework Core

Databases: SQL Server, MySQL

Security & Architecture: JWT Authentication, Role-Based Access Control (RBAC), Multi-Tenant Architecture, Tenant Isolation

Integrations & Features: Stripe Checkout, Email Integration, LLM Integration, OCR-Based Document Extraction, Excel/PDF Reporting

Tools: Git, GitHub, Visual Studio, Postman

Frontend: JavaScript, jQuery, AJAX

PROFESSIONAL EXPERIENCE

Software Developer – Nebel Infotech | May 2026 – Present

Project: PerfectLien / AnyLien – Lien Case Management Platform

Technologies: C#, ASP.NET Core Web API, Entity Framework Core, SQL Server, JWT, Stripe, Python (FastAPI), LLM Integration

- Developed RESTful APIs using ASP.NET Core Web API for a multi-tenant SaaS platform serving US law firms and contractors.
- Implemented tenant-scoped authentication and authorization workflows with JWT, role-based access control and tenant isolation across Super Admin, Law Firm Admin, Client and Employee roles.
- Built backend workflows for construction lien case management, including contractor-hierarchy parties, unpaid work months, configurable lien stages and statutory deadline calculations.
- Integrated Stripe Checkout for invoices, payment plans and discounts, and implemented credit-based controls for notice-sending functionality.
- Developed paginated and filterable reporting APIs for cases, deadlines, client billing, revenue and usage, with Excel and PDF exports.
- Implemented AI-assisted case management using conversational inputs, plus an OCR and LLM document-extraction pipeline through a Python FastAPI microservice.
- Maintained database schema changes through 230+ migrations, using soft deletes and GUID-based keys.

PROFESSIONAL EXPERIENCE – CONTINUED

Software Developer – Obelisk Infosystem | June 2025 – May 2026

Project: Healthcare Management System

Technologies: C#, ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, MySQL, jQuery, Git, GitHub

- Developed and maintained a healthcare management web application using ASP.NET Core MVC and ASP.NET Core Web API.
- Designed RESTful APIs and implemented business logic in C# for core healthcare workflows.
- Used Entity Framework Core and MySQL for data access, schema design and query optimization.
- Built dynamic user-interface functionality using jQuery and AJAX to consume backend APIs.
- Resolved application bugs, handled exception logging and supported production releases.
- Used Git and GitHub for source control and collaborated with team members through code reviews.

Software Developer – Publicis Sapient (Digitas) | May 2024 – June 2025

Project: Panasonic Life Solutions India (lsin.panasonic.com)

Technologies: C#, .NET, SQL, REST APIs

- Developed and maintained backend services and RESTful APIs using C# and .NET for Panasonic Life Solutions India's corporate and product website.
- Built APIs for the quotation basket (Get a Quote), enabling users to add products and request quotations.
- Implemented backend logic for the Dealer Locator, including location-based dealer search.
- Developed backend processing for business enquiry and customer support forms, including validation, data storage and email notifications.
- Exposed APIs for product listings, categories, filters and product details to support the product catalogue and search experience.
- Optimized SQL queries and API performance; handled exception management, logging and production bug fixes.
- Collaborated with frontend developers on API contracts and participated in code reviews, unit testing and Agile/Scrum ceremonies.

EDUCATION

Post Graduate Diploma in Advanced Computing (DAC) | CDAC | September 2023

Bachelor of Engineering – Mechanical Engineering | Pune University | 2021
